

Current Job Openings

(Last Updated 10/30/2009)

Estimator Position:

One position open: Honolulu, HI Branch

We are looking for person with good computer skills and knowledge of plumbing products. Duties include customer service and estimating customer orders. Ability to read blue prints or specs is helpful.

No current positions open in Washington or Alaska

Application Process

The application is located on our web page. Click 'Contact Us' and then click 'Careers' to see the link for our application. (At the bottom of the page.) Everyone is welcome to make an application for employment.

Applications are reviewed, and qualified applicants are invited into the interview process.

Interviewing is a five step process including reviewing the application. The first step is a review of the application. If we are interested, we will schedule an interview with Human Resources. If approved to continue in the application process, references will be checked. If references are acceptable, your resume/application will be forwarded by HR to managers with open positions as they become available. If a manager is interested in hiring you for the position, a pre-employment drug screen is required before a position can be offered.

Please feel free to apply. Applications are kept on file for approximately one year.
